Tuition: \$125.00 Dentist \$60.00 Auxiliary

UTILIZING 21ST CENTURY TECHNOLOGY IN THE DENTAL OFFICE

Every dentist should be utilizing 21st Century technology when building or upgrading a dental office, but which technologies should they select? The clinicians present reasons why and how to utilize digital technology, televisions and great sound systems, as well as, computers to provide the most efficient and patient friendly experience for your dental practice.

Location: 1E13 **Credit:** 3 CEUs
Recommended for: Dentists, Hygienists, Assistants, Students

Learn to:

- better understand the choices available for adding technology to a dental practice
- better understand how to use technologies to improve patient experiences
- provide dental services more efficiently
- better educate their patients by utilizing technology

Presiding: Lorna E. Flamer-Caldera, D.D.S., New York, NY
Member, Continuing Education Committee, Second District
Dental Society
